

Reference Letter: Andrei Cursaru

To whom it may concern,

I am writing to confirm that Andrei Cursaru has successfully completed the Richardson Institute for Peace and Conflict Research Internship Programme, at Lancaster University.

Andrei was recruited as part of a small team working to supply external partner Moonshot CVE with research into extremism in the Jordanian context. Over the course of what was a challenging project Andrei took a central role in organising the team around him, demonstrating strong leadership and organisational skills. His enthusiasm and standard of work have met all expectation and have been key to ensuring the research project's successful completion.

The internship was of a fixed term which has now drawn to a close, I would happily work with Andrei again due to the high work ethic and research skills he has consistently displayed throughout the process.

We would be happy to supply more information should it be required, contact details for both the internship coordinator and director of the institute can be found below.

Yours faithfully,

Grant Helm
