

To Whom It May Concern,

It is with great privilege that I write to you in recommendation of Mr. Ioan-Andrei Cursaru. As his sponsor at NATO Allied Command Transformation (ACT), I recommend him wholeheartedly for your consideration. I do so without any reservation. In all that he endeavoured, Andrei has demonstrated the highest level of professionalism and intellectual curiosity. His strong passion for international security and fostering transatlantic relations between NATO and EU through innovative ideas makes him an invaluable asset and a great addition to any success-orientated organisation.

Andrei has been a great contribution to the work of our branch ever since the start of his internship programme. Andrei has proven to be an important team player being a proactive, motivated and engaged member of our team. He has also demonstrated the ability to think critically in both conceptual and practical manners, by conducting in-depth research of the evolving security environment, which will contribute to the transformation of our Alliance. Furthermore, he has also proven a high-level of commitment to analyse quantitative and qualitative data for his research in our field of work.

Andrei is a professional who always goes beyond requirements and expectations, committing himself deeply to his work, and always trying to push himself to achieve maximum results. It goes without saying that he has shown during his experience as a Special Assistant Intern to the Supreme Allied Commander Transformation (SACT) an overall enthusiasm, adaptable and proactive attitude for working in an international security organisation, with an emphasis on innovation. Hence, I am confident that he will make an excellent addition to your institution; bringing with him the skills he has thus far acquired in the field to enhance and enrich his future colleagues and work productively.

His achievements are a strong indicator of his potential, thus I can think of no person more suitable or deserving of this opportunity.

Do not hesitate to contact me if you wish to discuss these references further.

Yours faithfully,

Ionuț Toma
